Teshikaga Lake Mashu Observatory

D Nature

Lake Mashu is the clearest lake in the world. It is surrounded by steep cliffs and the transparent lake water shines blue. That colour is known as the “Mashu Blue”. In the winter, white frozen trees surrounding the lake are perfect foil to the lake and the Mashu Blue shines even more. Lake Mashu is a mysterious space worthy of the name “Kamuy-to”, which means the Lake of the Gods.

摩周湖展望台 第1屈 Teshikaga

世界一級の透明度を誇る湖「摩周湖」。切り立った崖に四方を囲まれ、湖面は静かに限りなく透明なブルーに輝く。その色は「摩周ブルー」と呼ばれている。冬には、湖を囲む凍った木々や白い結氷が引き立て役となり、摩周ブルーがさらに輝きを増す。まさにアイヌ語で神の湖（カムイ・トー）という名にふさわしい神秘の空間。それが摩周湖。
